Wallmount BIX Frame, 250 Pair

BIX Mounts are basic components used in building a cross-connect system. They can accept BIX Distribution, Multiplying or Modular Jack Connectors. The 300 and 250-pair mounts can be wall-mounted or installed on BIX Frames. These mounts feature an interlocking design allowing them to be stacked for larger cross-connect installations. The BIX 50-pair Mount is typically used in small cross-connect installations.
