## Multimeter Electrical Kit

Kit Consists Of

- DM-25 Manual Ranging Multimeter
- GT-11 Non-Contact Voltage Detector
- GT-10GFI Outlet Circuit Carrying Case

## Features & Specifications

### Description

DM-2

AC Voltage: 200.0, 600V DC Voltage: 20.00, 200.0, 600 V. Resistance: 200.0, 2000 Ohms, 20.00, 200.0, 2000 kilohms

GT-11 detection range 50 to 1000 V AC.

GT-10GFI light sequence indicates correct/incorrect wiring. GFI Test current 7.5 mA at 120V

### Specifications

Application

- DM-25 Measures AC voltage, DC voltage, resistance, checks continuity, tests diodes and 1.5V & 9V Batteries
- GT-11 Detects AC voltage in outlets, lighting fixtures, circuit breakers and cables, and finds a break in an energized wire
- GT-10GFI Checks outlet for proper wiring and tests GFCI devices.

Standard

- DM-25, GT-10GFI & GT-11 are ETL Listed
- DM-25 & GT-11 are CE Compliant

Voltage Rating

- DM-25 CAT III 600V
- GT-11 CAT IV 1000V
- GT-10GFI 125V
